

Pure Pursuit Lab

Team Name: VirtualFastKeyboardFurious

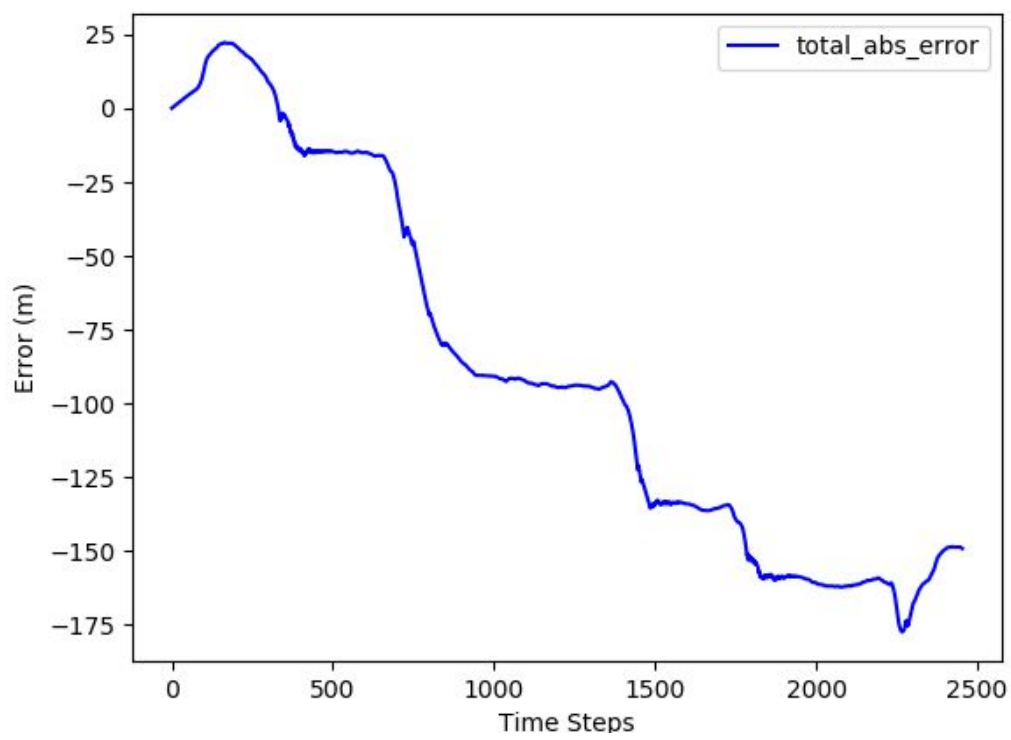

Absolute Track Error = -149.123895642503

Max Error = 0.750365660174

Error_plot for the Track

The Euclidean height distance error is calculated between Particle Filter Odometry estimate(start), desired goal(end) and the position of car. This error gives the position of car relative to the line joining the start and end point.

Moving Sum absolute error
